Materials Info

Most materials can be sourced at Amazon or Micheal's. These are my preferred stores.

I prefer ARTIST quality materials for my paintings and projects, primarily I wish for them to survive years without losing the original quality. A lot of research goes into streamlining the materials. I buy and test a bunch of different brands before I land on a certain kind that works well for me.

In the course of this workshop, please explore to see if something else works for you.

Consider buying a drawing book to keep notes organized. In this class I will teach borders and motifs. So, we will be using this extensively in this workshop. Loose paper is enough but you may lose it eventually.

Spiral bound - so pages can turn easily.
Mixed media paper so you can make quick paint swatches and notes with multiple mediums like paints, markers, pens etc…
